

Ever since the company was founded in 1948, SPT maritime et industriel has been active in three areas :

- **CONSTRUCTION**, when it comes to building and fitting out newly built or renovated buildings, in locksmith, metalwork and framework specialties.
- **ENGINEERING** for maintaining, designing and manufacturing mechanical assemblies, boiler making specialties and metal structures in numerous industrial fields.
- **MARINE AND OFFSHORE** for designing, building or renovating accommodation areas and technical facilities onboard offshore pumping or drilling rigs as well as for all kinds of civilian and military vessels.

Our expertise, born of our 60 years of experience means that we can bring our clients turnkey solutions to even the most specific issues.

We have the design, production, logistics, storage and construction resources at all of our facilities, so that we can offer a complete and reactive response to all of your projects needs.

Since 1986, SPTmi is compliant with the various quality requirements and standards and is able to implement Quality Assurance Plans that are specific to every contract. We also apply the principles set out in the ISO 9001:2008 standard.

Our company is present at Marseille, La Seyne sur Mer and Brest in France, and Cape Town, South Africa.

# Our Resources

**spt**

maritime et industriel

## Head office - Marseille, France

A metalworking shop covering 2,000 m<sup>2</sup> comprising :

- . Shears for steel panels 1 to 10 mm thick and up to 3 metres wide
- . A numerically controlled metal shaper for sheets of up to 4 mm thick and 3 metres wide
- . A steel section bender
- . A steel section shaper
- . A punch
- . A 40 tons rectifier press
- . A band saw
- . TIG, MIG welding stations

A woodworking shop covering 2,000 m<sup>2</sup> comprising :

- . A beam edger
- . A four-sided surface planing machine
- . A panel saw
- . A gluing unit and press
- . An edge gluing unit
- . A shaper
- . A jointer

A paint and varnish spray booth.

A truck : 4.5 x 2.1 metres; load capacity: 2.5 tons; 1.1 ton lifting capacity on board the truck.

A 1,000 m<sup>2</sup> equipment storage warehouse (for up to 500 palettes on racks).

A 4,000 m<sup>2</sup> open air storage area for receiving, storing and sending out containers.

## Local agency - La Seyne, France

A metalworking shop covering 1,000 m<sup>2</sup> comprising:

- . Shears for steel panels 1 to 5 mm thick and up to 3 metres wide
- . A numerically controlled metal shaper for sheets of up to 4 mm thick and 3 metres wide
- . A steel section bender and shaper
- . A band saw
- . TIG, MIG welding stations

A woodworking shop covering 1,000 m<sup>2</sup> comprising:

- . A panel saw
- . An edge gluing unit

A truck : 4.5 x 2.1 metres ; load capacity : 2.5 tons.

A 500 m<sup>2</sup> storage warehouse.

## Local agency - Brest, France

A metalworking shop covering 800 m<sup>2</sup> comprising :

- . Shears for steel panels 1 to 5 mm thick and up to 3 metres wide
- . A numerically controlled metal shaper for sheets of up to 4 mm thick and 3 metres wide
- . A steel section bender and shaper
- . A band saw
- . TIG, MIG welding stations

A woodworking shop covering 500 m<sup>2</sup> comprising :

- . A panel saw
- . An edge gluing unit

A 500m<sup>2</sup> storage warehouse.

## Subsidiary Company Cape Town, South Africa

A 1,500 m<sup>2</sup> sorted equipment storage warehouse for marine and offshore applications

**SPT** maritime et industriel

258, Chemin de la Madrague Ville - CS10202 - 13344 MARSEILLE Cedex 15 - France

Tel : +334 95 05 18 00 - Fax : +334 95 05 18 18 - Email : [sptmi@sptmi.com](mailto:sptmi@sptmi.com)

[www.sptmi.com](http://www.sptmi.com)

Since 1948, SPTmi, and then SPTmi Offshore, founded in 1979 and dedicated to our marine business, offers solutions for the design, construction or renovation of living quarters and technical facilities onboard offshore pumping or drilling rigs as well as onboard all kinds of vessels (naval or passenger carrying, like cruise ships and car ferries).

## Areas of Expertise

- . Engineering and designing living quarters and technical facilities.
- . Insulation (fire, heat, noise protection).
- . Asbestos removal.
- . General fittings (partitions, flooring, ceilings, furnishings, etc...).
- . Galley design and outfitting.
- . Piping and plumbing (freshwater and grey and black water networks).
- . Sewage treatment.
- . Hvac (power production, distribution and ducting).
- . Electrical systems.

## Areas of Application

- . Fitting out technical facilities (laundry, control room, storage areas, engine rooms, etc...).
- . Fitting out and renovating cabins and pantries.
- . Fitting out and renovating galleys.
- . Fitting out living areas (mess and recreation rooms, gyms, TV rooms, etc...).

## Strong Points

- . More than 60 years of experience in this field.
- . The ability to take on complete fitting out projects (covering multiple specialities).
- . The ability to propose and offer "turnkey" solutions suited to client needs.
- . Mobility (able to undertake work overseas, onshore, offshore).
- . Adaptability (able to undertake work during technical shutdowns or while in service).
- . Reactivity (thanks to our multiple locations in France and overseas as well as our stocks of materials and equipment).
- . Logistics management (managing storage in-house, packaging and shipping equipment to site).
- . Fully compliant with marine standards and the specific regulations applicable to offshore and marine work (Solas, IMO Moducode, etc...).

## ACERGY - SUBSEA<sub>7</sub>

**SOUTH AFRICA** (Cape Town) - POLARIS - Full renovation of galleys and cold stores.

## ASTICAN

**2010-SPAIN** (Las Palmas) - STENA TAY - Renovated sanitation units (resin floors), doors, galley and cold store.

## DCNI

**FRANCE** (Brest) - SFX ENERGY - "Turnkey" new build work including systems and network (HVAC / Shower water piping, grey & black waters).

**FRANCE** (Brest) - Aircraft carrier Charles de Gaulle – Building and fitting out living quarters.

## EIFFEL

**FRANCE** (Fos sur mer) - TOTAL ANGUILLE - New technical module (four levels), equipment (insulation, doors, floors).

## ENSCO

**2009-SOUTH AFRICA** (Cape Town) - PRIDE SOUTH PACIFIC - Renovated three levels of living quarters including networks (HVAC, electrical wiring, piping).

## IFREMER

**2009-FRANCE** (Brest) - ATALANTE - Renovated technical facilities, mess room and cabins.

## KCADEUTAG

**2009-CONGO - INDONESIA** - ALLIGATOR - Renovated living quarters (floors, piping, partitions, ceilings, furnishings).

## MARLIN OFFSHORE

**2009/2010-SOUTH AFRICA** (Cape Town) - Renovated three levels of living quarters including networks (HVAC, piping, sewage treatment).

## SAIPEM

**2011-SOUTH AFRICA** (Cape Town) - SAIPEM 3000 - Renovated living quarters (PVC resin floors, doors, furniture).

**2011-SOUTH AFRICA** SAIPEM FDS - Renovated living quarters (PVC resin floors, doors, furniture).

**2011-SENEGAL** (Dakar) - SAIPEM SAIBOS - Renovated living quarters (galley, mess room, created a common changing room, cleaned air-conditioning ducting and galley smoke extractors, freshwater and seawater piping).

## SEDCO FOREX

**CONGO** - TRIDENT IV - Renovated and extended the living quarters (on three levels) including networks (air-conditioning, electricity, piping).

**CAMEROON** - SEDCO 709 - Refurbished and extended the living quarters (on three levels) including networks (air-conditioning, electricity, piping).

## SINGAPORE MARINE TECHNOLOGY

**SINGAPOUR** - DELTA FRIGATES - Engineering work and complete fitting out of a Frigate's living quarters. Assistance and delivery as part of a technology transfer process for the equipment required to fit out five identical frigates. (refer to article in Les Echos, 2001 : SPTMI veut se redéployer sur l'aménagement de plates-formes offshore) (SPTMI seeks to redeploy to fitting out offshore rigs).

## STOLT OFFSHORE

**ANGOLA** - POLARIS - Acoustic insulation for 20 cabins.

## TOTAL

**INDONESIA** - BEKAPAI - Renovated living quarters.

**2012-ANGOLA** - FPSO GIRASSOL - Renovated the resin floors for 80 sanitation units.

**2012-ANGOLA** - FPSO GIRASSOL - Full galley refurbishing (resin floors, partitions, ceilings, doors, miscellaneous equipment).

## TRANSOCEAN

**SPAIN** (Las Palmas) - SEDCO ENERGY - Full renovation for a level and fitting out, installing networks (electrical HVAC, piping, sewage).

**2010-SPAIN** (Las Palmas) - SEDCO EXPRESS - Miscellaneous work (replacing doors, vinyl floors, insulation).

**2012-SPAIN** (Las Palmas) - GS II CONTELLATION - Renovating the second level of the living quarters, replacing freshwater piping networks.
